

NE-1815 | COMPACT HEAVY DUTY INVERTER MICROWAVE

Save on energy with the NE-1815 thanks to our Inverter Technology. It maintains perfect power control to ensure faster, more even and gentle cooking. For fast single portion throughput in busy establishments, vending, fast food sites and public house kitchens. Designed with precision and built for performance, it can easily handle multiple dishes at once, making it ideal for quick and efficient preparation.

Microwave
1800W

Energy-saving High-performance Cooking

INVERTER

Technical Specifications		
Power Source		50Hz, single phase 230-240 V
Required Power		12.3A 2830 W
Power Supply		13 Amp
Frequency		2450 MHz
Outer Dimensions		422x508x337mm
Cavity Dimensions		330x310x175mm
Output*	High	1800 W*
	Medium	900 W
	Defrost	340 W
Net Weight		30 kg
* LC type MWO (3380W) Compared to Inverter MWO (2750W)		

PLACEMENT OF YOUR OVEN

- The Oven must have sufficient air flow, 5cm at the side, 15cm clear over the top and 10cm at the rear.
- Do not place the oven on a shelf directly above or beside a gas or electric hob or cooker. This may cause damage to the oven.

ENERGY-SAVING

With Inverter microwaves, you can save on energy consumption*, which is good for the environment, and your wallet.

EVEN HEATING

Inverter technology allows you to cook, reheat or defrost your food without creating cold spots or overcooking edges. This Inverter delivers an accurate power level; when you ask for 60% power, the oven delivers 60% power for the entire duration of the cooking time chosen. This applies no matter what power level is selected, giving you better, more even cooking results.

LIGHTER & SMALLER

Inverter microwaves are equipped with a compact and efficient power supply that weighs only 500g. This makes the overall unit lighter, more portable and easier to move around for cleaning. The total unit weight has been reduced to approx. 18kg, 12kg less than the NE-1843.

FEATURES

- Dial control, 3 power levels
- Stainless steel body and cavity
- Easy to clean interior with remaovable ceiling plate
- Dual emission top and bottom energy feed ensures even heating
- Clear LCD display of power levels, time and self diagnostic codes
- Removable air filter for easy cleaning
- Two ovens can be securely stacked one on top of another
- LED Interior light can be programmed to flash at the end of the cooking cycle
- 10/20 second boost button. Just a single press provides an additional 10/20 seconds if needed
- Self diagnostic
- Pull open door with wide easy view window
- 1/2 Gastronorm tray fits in it
