| 1 Defrost button     | 4 Time entry button      | 7 Number buttons      |
| 2 USB buttons        | 5 Double quantity button | 8 Stop / reset button |
| 3 Power level button | 6 Triple quantity button | 9 Start button        |

### Specifications

The Merrychef MicroMD is the perfect choice for anyone who wants to complement their existing Merrychef oven with an additional resource to improve efficiency in a commercial kitchen.

The Merrychef MicroMD is ideal for quick, basic food reheats, particularly from frozen.

One standard Merrychef MicroMD unit runs off a standard domestic 13A/16A supply.

- |   |                         |
